ABOUT US

An Italian company, from Ancona to Cairo

Man Italy Group was founded in Ancona as MAN ITALY S.R.L., with a clear goal: to bring quality cheese and food products to the markets that are looking for them.

In Egypt we work with MANITALY FOR IMPORT & EXPORT, based in Cairo. This is where we have built our hub: a 1,000 m² plant for cutting, packing and distribution, and a fleet of refrigerated trucks in Man Italy livery.

Man Italy

Hard and fresh cheeses, Cheddar, tomatoes and flour: our Italian range, sourced from trusted Italian producers.

MAN Origins

Dutch Gouda, Cheddar from Ireland, England, the United States and New Zealand, plus Irish and New Zealand butter. Each national line carries its flag and country of origin on the label.

Sourcing and import

We choose producers in Italy, Europe and beyond and manage the import process.

Cutting and packing

At our plant in Cairo. Custom formats: tell us the weight and type of cut, and we will confirm feasibility and timing.

Refrigerated distribution

Deliveries in Egypt with our own fleet of refrigerated trucks.

Export

On request, to the Middle East and Africa, from Egypt or directly from Italy.

Hard cheeses

Parmigiano Reggiano, Grana Padano, Pecorino Romano

PDO cheeses (Parmigiano Reggiano, Grana Padano and Pecorino Romano) are not cut in Cairo: they arrive packed from their area of origin, as wedges or, for Grana Padano, also as whole wheels.
